

BEFORE THE
POSTAL REGULATORY COMMISSION
WASHINGTON, D.C. 20268-0001

In the Matter of:

East Akron Station
Akron, OH 44305
(Paul J. Connor and Shirley
Strader, Petitioners)

Docket No. A2011-16

NOTICE OF UNITED STATES POSTAL SERVICE
(May 31, 2011)

By means of Order No. 733 (May 19, 2011), the Postal Regulatory Commission docketed correspondence from customers of East Akron Station in Akron, OH, assigning PRC Docket No. A2011-16 as an appeal pursuant to 39 U.S.C. § 404(d).¹ That Order, at page 2, set May 31, 2011 as the date by which “[t]he Postal Service shall file the administrative record regarding this appeal” or “any responsive pleading to this Notice.” This pleading responds to that directive.

As an initial matter, this appeal concerns the discontinuance of a station, which is a retail unit subordinate to a Post Office. See Publication 32, Glossary of Postal Terms (updated through April 2011) at 176 (defining postal station); *Wilson v. United States Postal Service*, 441 F. Supp. 803, 806-807 (C.D. Cal. 1977) (recognizing the situation where a “station or branch is ... subordinate to another Post Office”). In the Postal Service’s view, the discontinuance of East Akron Station does not require an official administrative record conforming to Post Office discontinuance regulations in 39 CFR Part 241.3 and Handbook PO-

¹ East Akron Station appears on the list of stations and branches identified for possible discontinuance in PRC Docket No. N2009-1. See [USPS-N2009-1-4 - Current List of Stations/Branches Identified As Candidates for Discontinuance Study Under Station/Branch Optimization/Consolidation Initiative \(Public Version\)](#) (January 29, 2010).

101 because East Akron Station is not a Post Office.² Nonetheless, the Postal Service submits as Exhibit 1 the attached Final Determination to Close the East Akron, Ohio Classified Station and Continue to Provide City Delivery, Retail and Post Office Box Service through the South Arlington, Ohio Station, which documents how Postal Service management considered the various effects of the instant discontinuance action on customers, employees, and the community.

The Postal Service also notes that the procedural requirements of 39 U.S.C. § 404(d) do not apply because the discontinuance of East Akron Station does not qualify as a closure envisioned by 39 U.S.C. § 404(d). As recognized in PRC Docket No. A2010-3, the section 404(d) procedural requirements apply only where postal customers lose access to postal services, and postal customers do not lose access to postal services where alternate retail facilities are located in “close proximity” to the discontinued station. See Order No. 477, PRC Docket No. A2010-3 (June 22, 2010) at 7-8. In this case, customers will continue to have access to Ellet Station, located two miles from East Akron Station, and the ten other postal retail facilities and two contract postal units located within five miles of East Akron Station. See Exhibit 2 (printout from “Locate a Post Office” on USPS.Com).³ Customers may obtain some postal services from expanded

² The Postal Service understands that 39 U.S.C. § 404(d) does not extend to the review of Postal Service decisions regarding the discontinuance of stations and branches. See *generally* Reply Brief of the United States Postal Service (December 16, 2009), section III (pp. 6-12), PRC Docket No. N2009-1; Comments of United States Postal Service Regarding Jurisdiction Under (Current) Section 404(d), PRC Docket No. A2010-3 (April 19, 2010). In this matter, Petitioner does not allege facts that constitute a condition precedent to any jurisdiction of the Commission under section 404. 39 U.S.C. § 404(d)(5).

³ Exhibits 2 and 3 use the term “Post Office” for retail units staffed by postal employees, thus including stations, branches and Post Offices.

access options, including the three Automated Postal Centers® located within five miles of East Akron Station, the three stamp consignment sites located within one mile of East Akron Station – CVS, Walgreens, and US Bank – and Stamps By Mail®. See Exhibit 3 (printout from “Locate a Post Office” on USPS.Com). Accordingly, due to the close proximity of other postal facilities and the presence of expanded access options, the discontinuance of East Akron Station will not cause postal customers to lose access to postal services, and the section 404(d) procedures do not apply.

Even assuming the section 404(d) requirements were applied to the discontinuance of East Akron Station, the Postal Service satisfied the salient provisions of section 404(d). On July 14, 2009, the Postal Service distributed questionnaires to customers notifying them of the possible discontinuance of East Akron Station, and inviting comments on the potential change to the postal retail network. Exhibit 1 (Final Determination) at 1. The Postal Service made these questionnaires available over the counter for retail customers who did not receive mail delivery through East Akron Station. *Id.* Through this notification, the Postal Service furnished customers with well over 60 days’ notice of the Postal Service’s intention to consider discontinuance of the facility. The Postal Service received 112 customer responses to the questionnaires. *Id.* Upon making the final decision to discontinue East Akron Station, the Postal Service informed customers through a letter dated April 11, 2011. See Petition for Review Received from Paul J. Connor Regarding the Closure of the Akron, OH Post Office 44305, PRC Docket No. A2011-16 (May 17, 2011).

The Postal Service further considered all of the pertinent criteria of section 404(d), including the effect on postal services, the community, and employees, and the economic savings arising from the discontinuance. Exhibit 1 at 1-4. Customers notified the Postal Service of their concerns related to postal services, including the conditions of other nearby postal facilities; the community, including the effect on senior citizens, individuals with disabilities, businesses in the community, and mail security; and employees. *Id.* As reflected in the final determination, the Postal Service considered these concerns during the decision-making process. See *id.* With respect to economic savings, the Postal Service provided a breakdown of the costs that serve as a basis for its estimate of economic savings. *Id.* at 4.

In its responses to customer questionnaires, the Postal Service addressed customer concerns about obtaining services from a different postal retail location. Specifically, the Postal Service informed customers that after the discontinuance of East Akron Station, they would have a choice of carrier delivery or Post Office Box service. *Id.* at 2-3. It also explained that while a change of address is necessary for those customers choosing carrier delivery service, customers choosing Post Office Box service could retain their existing addresses. *Id.* In addition, the Postal Service identified the numerous retail service options available to customers, including the fourteen postal retail facilities within five miles of East Akron Station, and the ability to purchase stamps by telephone, through the Internet, or at stamp consignment locations listed at www.usps.com. *Id.* at 2.

In summary, the Postal Service submits the attached documentation in support of the foregoing discussion.

Respectfully submitted,

UNITED STATES POSTAL SERVICE
By its attorneys:

Anthony F. Alverno
Chief Counsel, Global Business

Kenneth N. Hollies
James M. Mecone

EXHIBIT 1

FINAL DETERMINATION TO CLOSE
THE EAST AKRON, OHIO CLASSIFIED STATION
AND CONTINUE TO PROVIDE
CITY DELIVERY, RETAIL AND POST OFFICE BOX
SERVICE THROUGH THE SOUTH ARLINGTON, OHIO STATION

DOCKET NUMBER 44305

I. RESPONSIVENESS TO COMMUNITY POSTAL NEEDS

The Postal Service has determined to close the East Akron Classified Station and provide post office box delivery and retail services at the South Arlington, Ohio Station, located 2.9 miles away. The post office box customers will be able to retain their address if they move to the South Arlington Station. If they choose to rent a post office box at another location or receive carrier delivery, they will have to change their address. Customers that receive carrier delivery out of the East Akron Station will retain the same delivery; the only change will be that they will have to go to the South Arlington Station for packages and accountable items that the carrier was unable to deliver.

Retail transactions have declined at the East Akron Station by approximately 10% since fiscal year 2007, while revenue has declined by approximately 11% for the same period. The Postal Service feels that regular and effective service will continue to be provided through the South Arlington Station. Additionally there are 14 contract postal units, post offices, stations and branches located within 5 miles.

The East Akron Classified Station provides service 46 hours a week from 8:30 a.m. to 5:00 p.m., Monday through Friday, and 8:30 a.m. to 12:00 p.m. on Saturday to 188 post office box and 9,991 city delivery customers. Retail services include the sale of stamps, stamped paper, and money orders; special services such as Registered, Certified, Insured, Delivery Confirmation, Signature Confirmation, COD, and Express Mail; and the acceptance and dispatch of all classes of mail. Daily retail window transactions average 321. Office receipts for the last three years were: \$445,666 in FY-2007; \$423,781 in FY-2008 and \$397,958 in FY-2009. There are no permit mail customers.

When this final determination is implemented, delivery and retail services will be provided by the South Arlington Station. All operations will be moved to this location. Window service hours at South Arlington Station are from 8:30 a.m. to 5:00 p.m., Monday through Friday and 8:30 a.m. to 12:00 p.m. on Saturday. There are 339 Post Office boxes available.

Retail service is also available at the Ellet Station located approximately 2.0 miles away. Window service hours at Ellet Station are from 8:30 a.m. to 5:00 p.m. Monday through Friday and 8:30 a.m. to 12:00 p.m. on Saturday.

On July 14, 2009 questionnaires were distributed to delivery customers of the East Akron Station. Questionnaires were also available over the counter for retail customers at East Akron Station. One hundred and twelve questionnaires were returned. None was favorable, 51 were unfavorable, and 61 expressed no opinion regarding the proposed alternate service.

The following postal concerns were expressed on the returned questionnaires and customer letters.

1. **Concern:** Customers expressed concern that the South Arlington Station was not convenient for the customers living in the East Akron community.

Response: The Postal Service is proposing to move the post office box section to the South Arlington Station, since it has room to accommodate more boxes. We understand that the distance may cause an inconvenience for some customers. Thus customers also have the option of renting a post office box at the South Arlington Station or the Ellet Station, located approximately 2.0 miles away. Retail service is available at these locations. Customers also have the option of city delivery service to their residence.

2. **Concern:** Customers expressed concern over the long lines at the South Arlington Station.

-2-

Response: The Postal Service has a goal to keep customers wait time in line at 5 minutes or under. The Postal Service will continue to monitor window operations to try to alleviate any excessive wait in line to obtain services. Customers can also help the situation by trying to visit offices during non peak times, which are generally when the window opens in the morning, during lunch and closing time. The Postal Service is certainly aware that customers live busy lives and we have taken steps to make obtaining services and products easier. Stamps by Mail envelopes are available at your local office. Alternate locations to buy stamps are listed under "Locate a Post Office" at www.usps.com. Customers can also purchase stamps by phone at (800) 782-6724 or on-line at www.usps.com.

3. **Concern:** Customers were concerned about having to travel to another post office for service.

Response: Some customers will have to travel farther to obtain services. Since there are 2 contract postal units and 12 Stations located within 5 miles of the East Akron Station, the Postal Service feels that customers can combine trips for service with other errands that are completed during the day. Customers also have the option of carrier delivery which would eliminate trips to the post office to obtain their mail. The Postal Service has taken steps to make obtaining services and products easier. Stamps by Mail envelopes are available at your local office. Alternate locations to buy stamps are listed under "Locate a Post Office" at www.usps.com. Customers can also purchase stamps by phone at (800) 782-6724 or on-line at www.usps.com.

4. **Concern:** Customers expressed concern that postal employees at the South Arlington Station are rude.

Response: Employee courtesy is always a concern of postal managers. Postal employees receive periodic instructions regarding employee courtesy. We do not condone our employees' execution of their duties in an unprofessional or discourteous manner. This concern will be conveyed to the postmaster by the manager, post office operations.

5. **Concern:** Customers asked why their post office was being discontinued.

Response: Post offices are reviewed on a case-by-case basis. Workload at the East Akron Station has declined. Additionally, there are 14 contract postal units, post offices, stations and branches located within 5 miles which indicate that city delivery service will continue to provide a maximum degree of effective and regular service to the community.

Some advantages to the final determination are:

1. Carrier delivery service is beneficial to some senior citizens, the handicapped, and working people since customers will no longer need to travel to the post office to pick up their mail.
2. Stamps by Mail order forms are provided for customer convenience for those customers receiving city delivery service.
3. Customers opting for carrier service will have 24-hour access to their mail.
4. A savings for the Postal Service, which contributes in the long run to stable postage rates and savings for customers.
5. Customers opting for carrier service will no longer have to pay post office box fees.
6. City delivery services saves time and energy for customers who drive to the post office to pick up mail.

Some disadvantages to the final determination are:

1. The loss of a retail outlet in the community.
2. A possible change in mailing address. Customers choosing post office box service at the South Arlington Station office will not experience a change of address. Customers choosing city delivery service will experience an address change. Mail will be forwarded in accordance with postal regulations, and change of address forms are available from the Postal Service to assist customers in notifying correspondents of the change.
3. Customers needing services from a post office will have to travel to another location for those services. The South Arlington Station is located 2.9 miles away.

Taking all available information into consideration, the Postal Service concludes this final determination will provide a maximum degree of effective and regular postal services to the community.

II. EFFECT ON COMMUNITY

East Akron Station is located in the incorporated City of Akron. The area is administered politically by the City of Akron. Police and fire protection, are provided by the City of Akron. The community is comprised of retired people, those who commute to work at nearby communities, and those who work in local businesses.

There are numerous stores, banks, religious institutions, and businesses located within the East Akron area. Residents travel to nearby communities for supplies and services.

The following non-postal concerns were expressed on the returned questionnaires and from customer letters:

1. **Concern:** Customers felt the loss of a post office would have a detrimental effect on the business community.

Response: Businesses generally require regular and effective postal services, and these will always be provided to the Northern District community. There is no indication that the business community will be adversely affected. Questionnaire responses revealed that customers will continue to use local businesses if the post office is discontinued.

2. **Concern:** Customers were concerned about senior citizens.

Response: Carrier service is beneficial to many senior citizens and those who face special challenges because the carrier can provide delivery. Customers do not have to make a special trip to the post office for service. Special provisions are made for hardship cases or special customer needs. To request an exception for hardship delivery, customers may contact the Akron postmaster for more information.

3. **Concern:** Customers expressed concern for those customers with disabilities who are not able to go to South Arlington Station to pick up their mail.

Response: Customers are not required to travel to another post office to receive mail or obtain retail services. In hardship cases, delivery can be made to the home of a customer. Changes in the type of delivery are considered where service by existing methods would impose an extreme physical hardship for an individual customer. Any request for a change in delivery method must be submitted in writing to the Akron postmaster.

-4-

4. **Concern:** Customers were concerned about mail security.

Response: Verification with the Postal Inspection Service revealed no recent reports of mail theft or vandalism in the area. Customers may place a lock on their mailboxes. The mailbox must have a slot large enough to accommodate the customer's normal daily mail volume. The Postal Service does not open mailboxes which are locked and does not accept keys for this purpose.

Based on information the Postal Service obtained, it was determined that there has been minimal growth in the area in recent years. However, service through the South Arlington Station and the other 14 contract postal units post offices, stations, and branches within the area are expected to be able to handle any future growth in the community.

To help preserve community identity, the community's name and ZIP Code will be retained in the mailing address. No change of address will be required for customers choosing post office box service at the South Arlington Station.

Based on information obtained in the course of this discontinuance study, the Postal Service concludes this proposal will not adversely affect the community.

III. EFFECT ON EMPLOYEES

The two clerks and EAS will be reassigned to the South Arlington Station and maintain bidding status within that office.

IV. ECONOMIC SAVINGS

The Postal Service estimates annual savings of \$93,475 with a breakdown as follows:

Clerk Salary (PS-6, Minimum)	\$82,704
Fringe Benefits @33.5%	26,880
Supervisor Salary (EAS-17, Minimum)	45,084
Fringe Benefits @33.5%	19,184
Rental Costs, Plus Utilities	140,195
Total Annual Costs	\$314,047
Less Cost of Replacement Service	<u>-220,572</u>
Total Annual Savings	\$93,475

A one time expense of \$199,800 will be incurred for the lease buy out and \$30,000 will be incurred for building modifications.

V. OTHER FACTORS

The Postal Service has identified no other factors for consideration.

VI. SUMMARY

The Postal Service has determined to close the East Akron Station and provide retail and delivery services through South Arlington Station, located approximately 2.9 miles away. Post office box customers will have the option of retaining their post office box and number at the South Arlington Station, or closing the box and receiving carrier delivery service. Present carrier delivery customers will receive the same service with the exception of traveling to pick up accountable mail and parcels that the carrier was unable to deliver.

-5-

The clerks and EAS supervisor will be reassigned to the South Arlington Station and maintain bidding status within that office.

The East Akron Station provides 46 hours of window service per week to 10,179 customers. Daily retail window transactions average 321. There are no permit mailers.

There will be a loss of a retail outlet in the area. However, Post office Box and carrier service at the South Arlington Station will continue to provide effective and regular service. To help preserve identity, the name and ZIP Code will be retained in the mailing address. The Postal Service will save an estimated \$93,475 annually. A disadvantage to some may be in the extra travel to obtain services.

Taking all available information into consideration, the Postal Service has determined that the advantages outweigh the disadvantages and this final determination is warranted.

VII. NOTICES

Notify customers of the permanent discontinuance of the East Akron Station and advise them of the hours of operation and services available at the South Arlington Station and the Ellet Station and 14 CPUs, stations, branches, and post offices.
